for NC operators.

► FLEXIBILITY

Connected perfectly  
to the company's  
data management.

► EFFICIENCY AND SAFETY

**TopSolid**

INTEGRATED  
DIGITAL  
FACTORY

### ADVANCED SOFTWARE WITHIN REACH OF THE MACHINE...

TopSolid'ShopFloor Cam allows you to view your ranges, but also to change a cutting condition, replace a tool, modify a pass within reach of the machine...

### ... IN COMPLETE SAFETY

... then simulate your changes and check for material removal and collisions.

### INTEGRATED WITH PDM

Your changes are saved as revisions in the PDM without altering the original range.

### DESIGNED FOR THE WORKSHOP

The ergonomics are adapted to the conditions and the equipment of the workshop.

The graphical interface is compatible with touch screens.

### Advantages of TopSolid'ShopFloor Cam

- ▶ Improves communication with the workshop thanks to digitization
- ▶ Simulates program flow
- ▶ Reduces preparation time
- ▶ Increases productivity and reduces delivery time
- ▶ Improves quality and consistency
- ▶ Facilitates collaboration between programmers and operators
- ▶ Avoids machining the wrong revision of the part
- ▶ Limits the risk of costly collisions
- ▶ Reduces downtime and maintenance costs
